SUMMARY

Passionate Software Engineer with 2 years of experience specializing in the development of server-side applications using NodeJS and ExpressJS. Proficient in crafting clear, concise code that enhances maintainability and ease of troubleshooting. Well-versed in collaborative efforts with both small and large teams. Demonstrates the ability to work independently, adapting seamlessly to remote or office environments as required by the organization.

SKILLS

Nodejs, ExpressJs, ReactJs, JavaScript, MongoDB, Sql, Git

EXPERIENCE

Software Engineer L1

WFH

Accubits Technologies Inc
NodeJS Developer

PROJECTS

Bud-Studio

Developed and maintained multiple RESTful APIs using Node.js and Express.js, focusing on optimizing response times for high performance..

Designed and implemented database schemas and queries in MongoDB, ensuring efficient data storage and retrieval.

Implemented robust authentication mechanisms, including OAuth2 for Google and Facebook logins, to enhance user security and experience.

Collaborated with cross-functional teams to gather project requirements, define API endpoints, and ensure seamless integration with frontend applications.

Bud-Editor

Developed and maintained a comprehensive Node.js API suite for a collaborative workspace editor. This suite enables users to create, manage, and organize workspaces, folders, and files.

Implemented user authentication and authorization controls to ensure secure access to workspaces and files, enhancing data privacy.

Designed and optimized database schemas and queries using MongoDB. This facilitates efficient storage and retrieval of user-created content.

Utilized Git for version control, enabling efficient code collaboration and tracking changes.

EDUCATION

Bachelor Of Science (Computer Science)

S.K Somaiya Degree College Of Arts, Science And Commerce (University Of Mumbai), GPA 9/10

06/2022

HSC

Guru Nanank College Of Arts, Science And Commerce (Maharashtra Board), GPA 8/10

04/2019

CERTIFICATIONS

1. Node.js, Express, MongoDB & More: The Complete Bootcamp 2022

2. React - The Complete Guide (incl Hooks, React Router, Redux)

3. The Complete 2022 Web Development Bootcamp
